

The image shows a single page of a technical manual or specification sheet. The page is filled with dense German text, several tables, and two detailed diagrams of the KPF 30-14 and KPF 45-20 pressure switches. The text is organized into sections such as 'Produktbeschreibung' (Product Description), 'Technische Daten' (Technical Data), 'Montage und Anwendung' (Mounting and Application), and 'Sicherheitshinweise' (Safety Instructions). The tables provide specific values for dimensions, weights, and operating parameters. The diagrams illustrate the physical design of the switches, showing their internal components like diaphragms and valves, and how they are mounted.
