LA STORIA DI TIEMME LA FORZA DEL GRUPPO GNUTTI CIRILLO

TIEMME'S HISTORY THE POWER OF GNUTTI CIRILLO GROUP

TIEMME è leader internazionale nel settore della produzione e commercializzazione di articoli idrotermosanitari. Nata negli anni '80, l'azienda conosce una svolta radicale nel 1994, quando entra a far parte del Gruppo Gnutti Cirillo una delle principali realtà dell'imprenditoria bresciana sin dagli anni '50, che detiene l'intera filiera tecnico-produttiva, trasformando la materia prima in prodotto finito e pronto per essere commercializzato. Così, in netta controtendenza rispetto all'ormai affermata cultura della delocalizzazione del ciclo produttivo e dell'outsourcing, TIEMME realizza all'interno dei propri stabilimenti tutte le lavorazioni ed ogni componente della propria gamma di prodotti, concentrandosi non solo sulla loro qualità e sull'eccellenza tecnologica e produttiva, ma puntando su una produzione eco-compatibile, ossia dall'impatto ambientale il più contenuto possibile. Pur operando con successo a livello internazionale attraverso filiali e uffici in tutti i continenti, TIEMME rimane un'azienda fermamente italiana e fortemente legata al proprio territorio. Mantenendo con orgoglio tutta la filiera produttiva sul territorio nazionale, TIEMME garantisce l'alta qualità e l'indiscutibile sicurezza ed affidabilità dei suoi prodotti e sistemi.

TIEMME is an international leader in the production and marketing of HVAC and plumbing fixtures items and systems. Established in the '80s, the company boasts a radical turning point in 1994, when it joined the Gnutti Cirillo Group, one of the leading companies in the Brescia business since the '50s, which holds the entire technical-production chain, transforming the raw material into a finished product ready to be marketed. Hence, in sharp contrast with the now-established culture of delocalization of the production cycle and of outsourcing, TIEMME realizes in its factories all the processes and every component of its product range, focusing not only on their quality and on technological and productive excellence, but aiming at an eco-compatible production, namely with the lowest possible environmental impact. Although operating successfully internationally through branches and offices on all continents, TIEMME remains a firmly Italian company moreover strongly linked to its territory. Maintaining the whole production chain on the national territory with pride, TIEMME guarantees the high quality and the unquestionable safety and reliability of its products and systems.

Situata a Castegnato, in provincia di Brescia, TIEMME opera in due stabilimenti adiacenti. Nel primo, di circa 10.000 m² coperti, sono situati produzione, uffici e la divisione Sistemi che offre un efficiente servizio di progettazione e di consulenza impiantistica. L'altro, che copre una superficie di oltre 25.000 m², ospita un moderno polo logistico a basso impatto e l'ampio reparto per la produzione dei tubi multistrato, PE-X (polietilene reticolato) e PPR (polipropilene Random). Esperienza e capacità di innovazione, grande creatività e produzione esclusivamente Made in Italy, cura nel servizio e rispetto per l'ambiente sono i punti di forza che caratterizzano le soluzioni per l'impiantistica termoidraulica di TIEMME, perfetta combinazione di competenza tecnica ed eccellenza produttiva. La costante attività di ricerca e ampliamento della gamma permette all'azienda di proporre nuove possibilità applicative dei prodotti idrotermosanitari, fornendo agli operatori del settore soluzioni per l'impiantistica sempre più ampie, puntuali e dalle elevate caratteristiche tecniche. Con questa cura e visione imprenditoriale, TIEMME propone un'ampia gamma di rubinetteria cromata per ambienti bagno e cucina, interamente prodotte nel nuovo stabilimento da 5.000 m² di Torbole Casaglia (Brescia) che racchiudono ed esaltano tutta la tecnica, la competenza e l'esperienza sviluppata negli anni. Le materie prime utilizzate e i trattamenti galvanici rispettano pienamente l'ambiente e sono interamente Made in Italy.

Headquartered in Castegnato, in the province of Brescia, TIEMME operates in two adjacent plants. In the first one, covering approximately 10,000 square meters, are located the production department, the offices and the Systems division, offering an efficient design and plant engineering advisory service. The other one, which covers an area of over 25,000 square meters, houses a modern low-impact logistics hub and a large department for the production of multilayer tubes, PE-X (cross-linked polyethylene) and RPP (Random polypropylene).

Experience and ability to innovate, great creativity and exclusively Made in Italy production, care in service and respect for the environment are the strengths featuring the solutions for TIEMME HVAC and plumbing fixture plant engineering, a perfect combination of technical expertise and manufacturing excellence. The steady research and expansion of the product range allows the company to propose new application possibilities for HVAC and plumbing fixture products, providing industry operators with high technical feature solutions for more and more extensive and exact plant engineering. With this care and entrepreneurial vision, today TIEMME offers thirteen new collections of chrome-plated tapware for bathrooms, entirely manufactured in the new 5,000 square meters factory in Torbole Casaglia (Brescia), which embody and enhance the whole technique, expertise and experience developed over the years. The raw materials used and the galvanic handling fully respect the environment and are entirely Made in Italy.

IL VALORE DELL'ACQUA: MENO SPRECHI PIÙ VANTAGGI

THE VALUE OF WATER: LESS WASTE MORE BENEFITS

TIEMME propone una gestione più efficiente dell'acqua in ambito domestico, considerandolo elemento vitale. La protezione del clima inizia da semplici azioni quotidiane quali il farsi la doccia o lavarsi le mani. Alle imprese che operano nel settore sanitario, viene chiesto di promuovere innovazioni che consentano notevoli risparmi idrici ed energetici, senza tuttavia limitare il comfort e la qualità della vita. TIEMME ha imposto un nuovo standard per tutti i suoi miscelatori, introducendo un innovativo rompigetto in grado di ridurre il flusso dell'acqua del 30% grazie alla combinazione di limitazione del flusso e arricchimento dell'acqua. Inoltre, con la sua innovativa tecnologia green propone articoli ecologicamente qualitativi.

Il Sistema Qualità TIEMME è lo strumento principe per garantire ai Clienti prodotti e servizi che soddisfino le loro aspettative di qualità costante al massimo livello e puntualità nella consegna, in un processo di miglioramento continuo, nel pieno rispetto della sicurezza e dell'ambiente. TIEMME ha ottenuto nel 1999 la certificazione ISO 9002 del proprio Sistema di Qualità e nel 2003 la certificazione ISO 9001, conseguenza naturale della politica di qualità totale e di raggiungimento dell'eccellenza da sempre perseguita dall'azienda. I prodotti TIEMME sono controllati e riconosciuti in tutto il mondo da oltre 70 enti di omologazione tra i più prestigiosi. Una efficiente e moderna assistenza formata da tecnici addestrati è completamente a disposizione della clientela.

TIEMME proposes a more efficient management of water in the domestic sphere, considering the relevant consumption as a vital element. Climate protection starts with simple daily actions such as taking a shower or washing your hands. Companies operating in the fixture sector are asked to promote innovations that allow significant savings in terms of water and energy, without limiting comfort and quality of life. TIEMME has implemented a new standard for all its mixers, introducing an innovative flow regulating nozzle designed to reduce water flow by 30% thanks to the combination of flow limitation and water enrichment. In addition, with its innovative green technology we offer ecologically qualitative items. TIEMME Quality Management System is the utmost tool to guarantee customers products and services that meet their expectations of constant quality at the highest level and timely delivery, in a process of continuous improvement, in full respect of safety and the environment. TIEMME obtained in 1999 the ISO 9002 certification of its Quality Management System and in 2003 the ISO 9001 certification, a natural consequence of the overall quality policy and the attainment of the excellence, which has always been pursued by the company. TIEMME products are controlled and recognized around the world by over 70 certification bodies among the most prestigious. An efficient and modern service formed by trained technicians is fully available for our customers.

SISTEMA DI RISPARMIO ACQUA ED ENERGIA

WATER AND ENERGY SAVING SYSTEM

Per promuovere il risparmio idrico ed energetico Tiemme ha imposto un nuovo standard per i suoi miscelatori, introducendo cartucce monocomando che hanno due caratteristiche speciali:

RISPARMIO IDRICO

Per avere più portata d'acqua bisogna vincere una resistenza in apertura (evita sprechi durante l'inconsapevole apertura dell'acqua).

RISPARMIO ENERGETICO

I rubinetti Tiemme aprono al centro dando acqua fredda, l'acqua calda esce solo con una rotazione della leva verso sinistra.

In order to promote water and energy saving Tiemme has set a new standard for its mixers, by introducing single-control cartridges with two special characteristics:

WATER SAVING

It is necessary to overcome an opening resistance in order to have a greater water flow (it avoids any unnecessary consumption during the unaware flowing of water).

ENERGY SAVING

Tiemme faucets open at the centre and give cold water, while hot water flows only by rotating the lever to the left.
